Contents Volume 45 (1990)

Scientific-Technical Section
Design aspects and implementation of a system for geocoding satellite SAR-images
G. Schreier, D. Kosmann and A. Roth (Oberpfaffenhofen, FR Germany) 1
Linejitter and geometric calibration of CCD-cameras
H.A. Beyer (Zurich, Switzerland) 17
Forest mapping using satellite imagery. The Regensburg map sheet 1:200 000 as example
M. Keil, M. Schardt, A. Schurek and R. Winter (Oberpfaffenhofen, FR Germany) 33
Current status of on-line point positioning in commercial photogrammetric systems
E. Dorrer (Neubiberg, FR Germany) 47

Short Communication
Optical remote sensing for forest damages
G. Hildebrandt (Freiburg, FR Germany) 55

News Section
News 57
Calendar 58

Scientific-Technical Section
Developments in analytical instrumentation
G. Petrie (Glasgow, U.K.) 61
Accuracy of videometry with CCD sensors
R. Lenz and D. Fritsch (Munich, FR Germany) 90
Spectral response of soybeans by field radiometry
G.T. Batista and B.F.T. Rudorff (Sao José dos Campos, Brazil) 111

Reports Section
United Nations International Meeting of Experts on the Development of Remote Sensing Skills and Knowledge — B. Forster 122
The European Association of Remote Sensing Laboratories (EARSeL) Ninth Symposium — L.F. Curtis 123

Letter to the Editor — K.B. Atkinson 126

Invitation-L.W. Fritz 127

News Section
News 132
Calendar 133

Scientific-Technical Section
Revision of large-scale maps at the Ordnance Survey
P.R.T. Newby and D.W. Proctor (Southampton, U.K.) 137
Evaluating regional body surface motion during breathing using stereophotogrammetry
L.P. Adams, H. Rüther and M. Klein (Rondebosch, South Africa) 152

Enhancement of satellite image data by data cumulation
J. Albertz and K. Zelianeos (Berlin, F.R. Germany) 161
Forest-type mapping and change detection from satellite imagery
S.P.S. Kushwaha (Hyderabad, India) 175

Book Reviews
Raumbezogene Informationssysteme (Spatial Information Systems), by G. Wolfgang — W. Faig 182
Signatures spectrales des surfaces naturelles, by G. Guyot — J.A. Allan 183
Satellite Monitoring of the Earth, by K.H. Szekielda — J.A. Allan 183

Reports Section
Fourth European AVHRR Data Users Meeting — R.W. Saunders 185
14th World Conference of the International Cartographic Association — A.J. Kimerling 187
42nd Photogrammetric Week — K. Tempfli 188
Conference on Optical 3-D Measurements Techniques — E. Baltsavias 190
IGARSS'89 — V.K. Shettigara 192
IGARSS'89 — J. Huntington 195
XIIth International Symposium on Architectural Photogrammetry — R.W.A. Dallas 197

Scientific-Technical Section

Special Issue: **Biostereometry and Medical Imaging**, edited by P. Niederer

Photogrammetry and remote sensing in medicine: biostereometry and medical imaging
A. Grün and P. Niederer i
Medical imaging techniques
K. Klingenbeck and H.E. Reinfelder (Erlangen, F.R. Germany) 203
Pattern recognition in 3D automatic human motion analysis
G. Ferrigno, N.A. Borghese and A. Pedotti (Milan, Italy) 227
Three-dimensional measurement of biological surfaces
D. Elad and S. Einav (Tel Aviv, Israel) 247
Occupant seating anthropometry: body ellipses and contact zones for side-impact protection research
C.C. Culver and D.C. Viano (Warren, Mich., U.S.A.) 267

Reports Section
Tenth Asian Conference on Remote Sensing — J.L. van Genderen 285
UN Cartographic Conference for Africa — J.G. Price 287
Joint Workshop on Hardware and Software for Fast Image Data Processing — H. Heipke 288

Scientific-Technical Section

Special Issue: **The Use of Remote Sensing in Geological Studies,** edited by C.C. Weber, R. Cassinis and D.A. Follestad

Geostructural Use of Remote Sensing
C.C. Weber (Orleans, France) 295
Computer processing of Landsat and Spot images for the morpho-structural analysis of the Wei He Graben (Shaanxi-China). Preliminary results
M. Binelli-Chahine, P. Vergely and Ph. Masson (Orsay, France) 297
Volcano-tectonic scenario of Vulsini Volcanoes (Central Italy) from LANDSAT-MSS images and digitial elevation data
C. Freda, D.M. Palladino, S. Pignatti, R. Trigila, G. Onorati and M. Poscolieri (Rome, Italy) 316
New fields of investigation in the earth sciences opened up by Spot: borehole siting and landslide mapping
J.-M. Coudert, P. Dutartre and J.-Y. Scanvic (Orleans, France) 329
Remote sensing as applied to mineral exploration in the Chalkidiki peninsula, northern Greece
P.I. Tsombos and S.I. Kalogeropoulos (Athens, Greece) 344
The evaluation of satellite imagery and field spectro-radiometer data for the study of the lithology and the ancient and reactivation tectonics in the vicinity of the East African Rift
J. Chorowicz (Paris, France), J. Lavreau (Terneuzen, Belgium), G. Tamain (Paris, France), K. Theunissen (Terneuzen, Belgium), C. Bardinet (Neuilly sur Seine, France), F. Girault (Orleans, France), J. Klerkx (Terneuzen, Belgium), A. Le Page (Nice, France), J. Nanyaro and G. Nimpagaritse (Dar es Salaam, Tanzania) T. Nkanira (Bujumbura, Tanzania), A. Ntungicimpaye (Bujumbura, Tanzania), I. Roggeri (Nice, France), J.P. Rudant (Paris, France), J. Ruder (Hannover, FR Germany), C. Thouin (Toliara, Madagascar), P. Trefois (Terneuzen, Belgium) and P. Yanda (Dar es Salaam, Tanzania) 355
The landscape-unit approach applied to geology, on SPOT images, in temperate climate zones using a test-area in the Cévennes (Massif Central, France)
J.-P. Deroin (Orleans and Paris, France), J. Chorowicz (Paris, France), T. Deroin (Paris, France), P. Dutartre (Orleans, France), J.-Y. Scanvic (Orleans, France) and A. Simonin (Paris, France) 382
SPOT data and the Montpellier igneous rocks as keys to a new large-scale tectonic interpretation of the Bas Languedoc (southern France)
J.-P. Deroin (Orleans and Paris, France) and A.L. Guy Tamain (Paris, France) 404
Regional mapping of the South Armorican shear zone (Brittany, France) using remotely sensed SPOT imagery
H. Yésou (Strasbourg, France) and J. Rolet (Brest, France) 419
Use of multiscalar processing of remotely sensed data in Kalan fracturation networks, west Kalimantan, Indonesia, for future mineralisations research
K. Hs (Jakarta, Indonesia) and M. Ruhland (Strasbourg, France) 428
Analytically processed Landsat TM images form visual geological interpretation in the northern Scandinavian Caledonides
K. Wester and B. Lundén (Stockholm, Sweden) and G. Bax (Trondheim, Norway) 442

Book Reviews
Geographic Information Systems: An Introduction, by J. Star and J. Estes — M. Ehlers 461
GIS Technologie: Geoinformationssysteme, Landinformationssysteme und ihre Grundlagen, by N. Bartelme — W. Kainz 463
Three Dimensional Applications in Geographic Information Systems, by J. Raper (Editor) — K. Beard 463

Reports Section
CHI 90 Workshop on Visual Interfaces to Geometry — M. Tuori 465
Orlando'90 — Optical Engineering and Photonics in Aerospace Sensing — D. St-Germain 466
